AMENDMENT "J"

Honorable Commissioner for Patents  
MS Amendment, PO Box 1450  
Alexandria, Virginia 22313-1450

This amendment is responsive to the Office Communication dated May 24, 2007, in which the Examiner disapproves the amendment after allowance filed under 37 CFR §1.312. In a prior Office Action dated April 6, 2007, the Examiner states that claims 62, 81 and 86, which are directed to species 3 and 4, are still withdrawn from consideration because they do not properly require all the limitations of an allowable claim. Claims 62, 81 and 86 are directed to the enclosure being a wall enclosure, which is not properly dependent to include all the limitations of the independent claim, as the independent claim requires the enclosure being comprised of a set of deflectable strips.

The applicant requests a Continued Examination (RCE) in compliance with 37 CFR §1.114. The payment is enclosed with this submission to cover the reexamination processing fees under the Small Entity category, according to §1.17(e).

Submitted herewith is an amended description of the specification and an amended drawing of Fig. 1 and Fig. 2. The amended text sheet replaces the section from Paragraph [0019], Pg. 4 to Paragraph [0020], Pg. 5 of the original specification filed on March 16, 2004. Changes are made with markings to indicate the changes relative to the prior version. The proposed amended Claims are discussed below. The applicant requests the re-examination of the application under 37 CFR §1.114.

The applicant has amended the claims in accordance with MPEP 714, with mark-
